

**EXHAUST
(H4SO U5)**

1. General

- The exhaust system consists of front exhaust pipes, three-way catalytic converters, a rear exhaust pipe and a muffler.
- The front exhaust pipe assembly consists of a front exhaust pipe (RH), which incorporates the front catalytic converter (RH), and a front exhaust pipe (LH), which incorporates the front catalytic converter (LH) and the rear catalytic converter.
- The exhaust system features an improved sound suppression design and has a chamber in addition to the muffler. Also, a twin-muffler system is used to reduce gas flow resistance.

2. Construction
